Satisfied customerBy Bill the Book LoverI splurged and bought three books about castles in Great Britain and found that each of them were different enough in the manner in which they approached the topic that there was less overlap than one might think. Since castles are pretty scarce in the US we can only address our curiosity by reading excellent books such as this and the other two that I bought. The response

from the providers was excellent and the books all arrived in very good condition.0 of 1 people found the following review helpful. The Daily Telegraph Castle Ancient Monuments of EnglandBy Brit in ArizonaBook arrived in less than a week. Was in very good order just as seller had described. Book is full of interesting pictures and informative descriptions of historical sites. Would use this seller again.1 of 1 people found the following review helpful. If You Like History...By Merry NolteWe bought this book for our second trip to England, and we loved it! If you're into history, and like to find out-of-the-way castles, stone circles, long barrows, hillforts, etc., this book is perfect. Great color pictures throughout, and an excellent quality paperback. Noonan writes engagingly, and gives you his honest opinion of sites, and whether they're worth your time. He also provides clear directions, times, and prices. We've now ordered his similar book for Scotland, and are hoping it arrives before we leave!

This guide describes in detail every castle in England and also covers a host of other sites of historic interest. It is organized on a county-by-county basis and is illustrated throughout.
