By CMLI recently took a trip to the Olympic Peninsula in Washington State, and one of the books I took with me was the Insider's Guide. I was disappointed to find that it was the most frustrating guide book that I have ever used. It is so poorly organized! Having the information separated into so many different sections makes it impossible to find anything. For example, I have a son and so I looked at the Kidstuff chapter. It's organized like an alphabet book - which is cute to read but impossible to use. Please re-organize this book - or at least re-do the index. I would like to be able to go to one chapter and find everything in a particular area, not have to read most of the book to find out what's going on in one area. I do think the book is interesting if you have time to sit and read through the whole thing, but I found it very difficult to find things in it.

Written by a local author, this guide includes details about hotels, restaurants, annual events, attractions, nightlife, parks and recreation, real estate, and much more.
