**Holly Day, Sherman Wick : Insiders' Guide to the Twin Cities, 3rd (Insiders' Guide Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Insiders' Guide to the Twin Cities, 3rd (Insiders' Guide Series):

Last summer, I traveled to the Twin Cities to see my Twins play at the Metrodome for the first time (having only caught road games in the past). Taking a three day weekend from work, I wanted to take advatntage of being in the

Minneapolis-St. Paul area for more than just a couple of baseball games, and boy did this guide help! I browsed over a couple of guides in the local bookstore before settling on the Insider's Guide. The information inside was as up to date as could be expected, and using it and a few web sites, I was able to work in two baseball games, the obligatory trip to the Mall of America, a Twins autograph session, trips to the Science Museum of Minnesota (to see the Questionable Medical Devices exhibit), a trip down the part of town featured in the Mary Tyler Moore show, and a quick tour of the Wabasha Street Caves, formerly the hideout of gangsters and the scene of a shootout featured on a History Channel program--all in less than 72 hours! I even located restaurants near the attractions I wanted to see that served the kinds of food I was interested in--Japanese and Italian at the time--without any difficulty. Take it from the Insiders when you make your trip to these wonderful cities in the upper Midwest. Minnesota is a hidden treasure that few in the US make it their goal to see--I went for baseball, and came back quite impressed, largely thanks to the Insider's Guide's information.
