Joetta Sack, Mary Alice Blackwell, Anne Patterson Causey : Insiders' Guide to Williamsburg and Virginia's Historic Triangle, 15th (Insiders' Guide Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Insiders' Guide to Williamsburg and Virginia's Historic Triangle, 15th (Insiders' Guide Series):

on the outside is what appealed to me I can't emphasize enough how useless of a guide this book has been. We're planning a trip for December and were looking for hints on how to nail one of the many and fabulous paid for events--we've been there before. I love Fodor's and Compass guides and this seems to be something that was thrown together. Truly, it's NOT worth just the shipping expense! 25 of 25 people found the following review helpful. Better to have no guide book at all - literally. By Wish Monster I travel a lot, and I am a planner, so I am no stranger to guide books. This is the worst guide book I have ever used. The one positive is that it is well written and easy to understand. But that is, truly, the only positive. Pricing information was woefully inaccurate. Hotels that no longer exist were listed. Hotels that do exist weren't listed. Multiple website URLs that are no longer live were listed. Driving directions were not only wrong (e.g. to the Williamsburg Winery), but obviously wrong when a rudimentary map was consulted. The basic fact-checking one would expect for a current guide book had obviously not been conducted. That leads me to blame the publisher, not the author, and as result I will never again purchase an "Insiders Guide." 21 of 21 people found the following review helpful. No ratings; no help By Jack Ross One would hope that an "Insider's" Guide might have ratings and/or recommendations - for hotels in particular. A mere list and description of them is something that can easily be obtained with a quick search of the internet. They have a section for Bed Breakfasts, but I couldn't find any of the particular resorts I was interested in. To truly be helpful, help us decide which places are best for the family, for couples, etc. with a simple star rating system.
