Insight Guides : Insight Guides Arizona the Grand Canyon before purchasing it in order to gage whether or not it would be worth my time, and all praised Insight Guides Arizona the Grand Canyon:

Here, you will find ghost towns, magnificent geological features, exciting cities such as Tucson and Phoenix, as well as descriptions of some of the highlights, such as the Grand

Canyon, Lake Powell, Monument Valley and Sedona. Great resource to take with you on vacation! 0 of 2 people found the following review helpful. Hey, they got your picture wrong! By ((Marco Buendia)))Whoops! The graphic decorators back in whatever-suburb-it-is have done it again ...In this new edition of this book, I opened randomly at pages 158 - 159, with a full 2-page photo spread of the Rainbow Bridge. This picture is labeled: "Arches National Park", which is, of course, about 100 miles north as the raven would fly if the raven meant to get there. Ravens don't know anything about names and have no reason to give a d---, but of course Rainbow Bridge isn't in Arches National Park and neither entity is in the state of Arizona. Otherwise the book seems to be OK. "Insight Guides" were good back when the usual guides just gave you bad advice about restaurants and motels, offering a lot of information about history, natural features, culture etc, and this book seems to be up to the traditional par. Nonetheless, the makers of these things need to be careful about photos. Mistakes will be noticed. Rainbow Bridge! Might as well stick in a photo of Lincoln and call it George Washington!
