You can get some of this information online but not all in one place. Really helped me plan out our trip.0 of 0 people found the following review helpful. Lots of InformationBy DAVID RoseNice book, little over 200 pages, with lots of history, plants, wildlife, hikes, and maps. I think a little bit more information about the camp sites and the local cities, and perhaps a little less than the 32 pages of history would have made this book complete for me.0 of 0 people found the following review helpful. greatBy runemcgreat advice. I found it very useful when I visited the park for the first time. It also includes sample images, which I found helpful.
