Mike Link : Journeys to Door County before purchasing it in order to gage whether or not it would be worth my time, and all praised Journeys to Door County:

If you've ever visited Door County or ever wanted to go, this book is for you. More than 100 stunning full-color photographs take you through one of America's most famous vacation areas. The beauty, charm, and friendly folk of Door County have brought people back year after year. This book truly captures the character of the Door County peninsula in vivid color photos and rich entertaining text. Everyone's favorite spots are here: the friendly fisherman on the dock at Sister Bay, the lighthouse overlooking Nicollet Bay, Peninsula State Park, Gills Rock at the tip of the county, Wilson's Old Fashioned Ice Cream shop and even the goats on Al Johnson's grass roof. Just paging through Journeys To Door County will make you feel as if you were there. This book has been considered the perfect traveling companion, with more than 20,000 copies sold since the first edition debuted in 1979. Since that time Door County has seen explosive growth and popularity, so the authors journeyed back to bring you Door County today. You will not be disappointed, as the strength and character portrayed in the first edition are still here. See all of the beautiful shorelines, the authentic architecture, and the stunning landscapes through the photography of Craig and Nadine Blacklock and experience it in the text by Mike Link. Now you can journey to Door County without a reservation. Also recommended: Minnesota Underfoot, The Twin Cities Naturally, Our Minnesota, Lake Superior's North Shore

and Isle Royale.
