Michael Brawne : Jrgen Bo Vilhelm Wohlert: Louisiana Museum, Humlebaek (Opus) before purchasing it in order to gage whether or not it would be worth my time, and all praised Jrgen Bo Vilhelm Wohlert: Louisiana Museum, Humlebaek (Opus):

1 of 1 people found the following review helpful. One of the Most Beautiful Museums in the World!By Paula SThe Louisiana Museum in Denmark is one of the most beautiful museums in the world. Starting as a manor house, the museum's building and grounds were expanded and developed over a several decades, creating a perfect meld of old and new. This book describes the planning and development and serves as a lovely souvenir for those who have visited (or want to, in the future). I wish I had had room to spare in my suitcase for the large book that is only available at the museum shop, but I was thrilled to find this book available when I got home.

Early in their careers, Jrgen Bo and Vilhelm Wohlert took on the expansion of a villa on the coast outside Copenhagen, the Louisiana Museum, which wanted more space for modern art. The first stage was completed in 1958 and the last in 1991. The additions that continued in between, which are everywhere acknowledged as masterful, model both the growth of a remarkable institution and shifting attitudes about the display of art.
