resource for my family! As a homeschooling family I truly appreciate being able to open this book and quickly find places to visit in our state that correlate with what we are studying. I like the way the authors have set up each destination in the book so that I can quickly reference the address, website, hours and admission price without having to jump on the internet; it makes it much easier to compare different locations quickly. I've just ordered an updated version as mine is a bit dated now and I'm looking forward to perusing the newer version and planning our next day trip! 1 of 2 people found the following review helpful. Good Book By Larry N. Taylor Found this book originally in the local library and after reviewing it we wanted our own copy. Most of the places it lists for kids to see are also places adults would be interested in. I don't feel you would be disappointed if purchasing this book. 1 of 2 people found the following review helpful. Awesome Guide for Ohio events!! By Sandra B. Jenney I bought one of the first versions of this book several years ago and used it many many times. I was thrilled when Michele sent me one to review on my Explore Ohio with Sandy blog. It was really easy to write a review on this book. Having the hours of operation and web sites along with the descriptions make it a valuable tool when planning. My husband and I had a free day just this last weekend. I grabbed the book and found out that we could go to the Ohio Caverns and just down the road from that were the Piatt Castles. They were both open on Sunday and I even knew without looking anywhere else that one was open until 4pm and the other until 5pm..so we could easily plan our day. You are welcome to see my video review on my blog at [...] I would recommend their books highly! Thanks George and Michele
