Rose Rivezzi, David Trithart : Kids on the Trail: Hiking With Children in the Adirondacks before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids on the Trail: Hiking With Children in the Adirondacks:

0 of 0 people found the following review helpful. Five StarsBy Ti-JLBAwesome book. Well worth the money spent on it.3 of 6 people found the following review helpful. Not for experienced campersBy Actual UserKids on the trail gives

shallow coverage to a wide range of topics. Though there are some helpful hints and reminders, the content should be pretty obvious to anyone whose taken kids out even for a day at the park. That kids walk slowly, need snacks and water is no revelation. The second half of the book is devoted to a few Adirondack trail descriptions broken down by region. However, the trails discussed are but a tiny sample of the many in the area, so you're out of luck for many many routes. This section may yet prove useful, as it includes comments on terrain difficulty with kids in mind, but still this type of information, and more of it, would be readily available in a book devoted to Adirondack trails or even a topographical map. So if that is what you want, get a book devoted to that topic. 0 of 0 people found the following review helpful. This book is a great first step. By ATX Man We found this book a great introductory teaching tool and motivator. With the help of Kids On The Trail my daughter enjoyed hiking in the Adirondacks. Mt. Jo and Mt. Hadley were amazing!!

Describes 62 hikes throughout the Park for children. How to get to the trailhead, round-trip distances, and ascents. By Rose Rivezzi and David Trithart. 176 pages. Softcover.
