This book has changed every part of my life. If ever I need a special place to create romance this is my one stop shop. 0 of 0 people found the following review helpful. A miniature masterpieceBy Gary A. Carson This is one of my favorite books. I provided at least 11 images and the format is really nice. Great job Peter!

The objective of this book is not to serve as a definitive guide, but to encapsulate some of Kansas City's most romantic places and inspire further exploration.
