I can't find a decent book or information pamphlet which provides color pictures for all the "Secret, Beautiful and Hidden Treasures" which I can look down and find absolutely everywhere in Alpena Co and along the shorelines of Lake Huron. I am fortunate that my Husband's home sits right on Lk Huron. There are literally hundreds of beautiful specimens that can be found within an hour.I have found gorgeous, BIG Petoskey stones which are perfectly marked that would sell easily for over \$100 in Traverese City. I saw one in a store which had a beautiful polished finish on top and cut off and unfinished to the underside for \$165....This book does have a good amount of information about all the minerals located around Lake Huron but without color pictures it's difficult for the novice to determine exactly what they have in their had. Unless is the obvious Petoskey Stone.Anyone looking for beautiful Fossils, do yourself a favor and make the drive to Alpena County. Amazing finds.0 of 0 people found the following review helpful.
