Awesome read!By Jo Jo G.I just love, love, LOVE Susan Wiggs! Her Lakeshore Chronicles are an easy read, yet they take me back to the good 'ol days with love and romance sprinkled throughout. I can't seem to find the words to describe how much I love her books. I guess one could say she had me at hello, and I can't wait to read EVERYTHING she has penned. Thank you, Susan!0 of 0 people found the following review helpful. This is way funBy G.B.Someone sent this to my wife and she has been having fun with it for quite a while now. I asked her to get me a copy (\$4.00) after I sat and actually saw the fun she was having with it. It is basically an Advent Calendar, to be used as Christmas arrives, but it also has puzzles, games and other functions that can be used year around. It is great for kids and adults that have a little time on their hands and just want to relax and smile a bit.
