By Susan McM Tucker
I purchased two laminated maps of Boston at the same time. This one has the convenience that my AirBNB guests can mark their daily itinerary with a Dry Erase marker. Though a bit cluttered, guests have found this very convenient for touring. The map scale is big enough that no one needs a magnifying glass! Only wish that there was 1/2 inch more on the North side so that my street and house were on this map.

By nic2107
I love these maps. I have purchased at least 10 for different cities we have visited. I love that I can circle places of interest with a dry erase marker and map out our day.

Folded laminated street and travel map, in color. Scale 1:11,000. Legend includes sights, museums, theatres, monuments, churches, ski areas, beaches, hospitals, golf courses, Subway, bus stations, parking, international/regional airports, airfields, nature reserves, camping sites, hotels. Includes inset map of Eastern Massachusetts (1:600,000), Boston Region (1:200,000), Public Transport Boston. Climate charts show the average daily temperatures, humidity, hours of sunshine and precipitation for each month. Top 30 sights. Extensive index.

About the Author
Borch uses a patented lamination process to cross the folds of the map, making it easier to read and even easier to refold. The tough but non-toxic lamination material degrades to oxygen and water in a landfill environment. Before then, the map is practically indestructible in your backpack or suit coat pocket, and can even be written on temporarily with dry-erase markers.
