Patrick McGrew : Landmarks of San Francisco before purchasing it in order to gauge whether or not it would be worth my time, and all praised Landmarks of San Francisco:

0 of 0 people found the following review helpful. I left my heart in San Francisco...By Deborah SearleGreat pictures of famous buildings in San Francisco.0 of 0 people found the following review helpful. Five StarsBy garyGreat book on S.F.2 of 2 people found the following review helpful. Delightful SF DiscoveriesBy M. NelsonI've lived in SF for 6 years and have often wondered about some of the unique homes and buildings I see. Unfortunately, historical plaques on structures are rare. Consider this book as containing the historical plaque for each building.This book has great photos and succinct descriptions, which I appreciate. I didn't pick up this book to read an in-depth history of SF, but simply to learn tidbits about each interesting structure. In the age of the internet, I can use the building's title or home's address to search for more information if I'm intrigued enough to do so. However, I much prefer this broad range of interesting landmarks with a paragraph or two about each.My only complaint about this book is that the order is by landmark number, whereas it would be more useful grouped by neighborhood. In any case, you can quickly create a walking tour for yourself based on this book.
