Stephen Baister, Chris Patrick : Latvia: The Bradt Travel Guide (Bradt Travel Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Latvia: The Bradt Travel Guide (Bradt Travel Guides):

Latvia is as rewarding a destination for the art and history enthusiast as it is for the nature lover. Picturesque Riga is the most cosmopolitan of the Baltic capitals, a pleasure to visit with its art nouveau buildings, historic churches and museums, while further afield medieval castles, long sandy beaches and unspoilt countryside await exploration. Excellent coverage of Latvia's turbulent history and deep-rooted culture bring an essential understanding to the overall picture, ensuring that both weekend visitors and those making a more leisurely trip can make the most of all that the country has to offer.
