Waste of money justBy CustomerThis was a informative book if you have never been out in the outdoors. I think this could be more detailed then it was. I would just look up stuff online and read it there if I have anymore questions. Waste of money just, research online.0 of 0 people found the following review helpful. A Perfect Allagash GuideBy Mark F ChildsThis book is exactly what I was looking for, a detailed overview of the Allagash and details of all aspects of planning a trip on it.

A book so extensively detailed about canoeing the Allagash River in Maine, by expert outdoorsman Gil Gilpatrick, it's like having him along for the trip.

About ten years ago I came across someone making snowshoes using your book. I ordered a copy and built several pair which my much older children are still using. Last fall I glanced at your website again and noticed your books on the Allagash. Many years ago several friends had canoed the area but I never made the trip. The books and map went to the top of my Christmas wish list and made great winter reading! This spring my now 20 year old son lined up a summer job that gave him the last two weeks of August off before going back to college. My first question to him was, 'Do you want to take a week and canoe in Maine?' We just returned from a seven day trip from Eagle Lake to Allagash village! The wind was out of the south on all the lakes, it only rained when we were in camp, and we had just enough water to get through the lower portion of the river! What more could you ask for..... I would not have attempted the trip without the use of your well written books. With the books I had a great idea of what to expect and was fully prepared. Thanks Your books provided the impetus to make the trip with my son. Just a note to say thanks. I purchased your Allagash Guide package last year and just got back from my first AWW trip. Your guide was indispensable and was referenced throughout the trip. We started at Chamberlain Bridge and ended in Allagash Village. We used your recommendation for shuttle service and found Norman to be accommodating and efficient. I would definitely recommend your book to anyone planning to do the trip.
