1 of 1 people found the following review helpful. Very Useful for BackpackersBy K.LiveoakThis book is amazing. It is the second edition and it has been compiled by professionals in the recreation field that know what is needed for a great backpacking experience. The book is recommendations from their personal experiences and it is very informative and helpful if you are backpacking alone or teaching others about backpacking. I would recommend this to anyone and I strongly encourage all my backpacking participants to get this for our backpacking trips.0 of 0 people found the following review helpful. Five StarsBy Bruce MartinGreat resource for teaching others how to teach in the backcountry.

This unique collection of lessons represents not only the fundamentals but the very foundation of leadership and outdoor skills. No outdoor students, educators, or leaders should be without a copy.

"The Backcountry Classroom is a valuable reference work for every outdoor professional." Jim Gould - Adirondack Mountain Club  
"This is truly a user friendly volume. The Backcountry Classroom serves as an excellent resource for those involved in instructing others about how to survive in, take care of, and enjoy the wilderness." Robert Osgood - Visiting Assistant Professor of Education
