Steve Henry gives a lot of useful information. I also have the author's book "60 Hikes Within 60 Miles: St. Louis" which makes a great companion book (i.e. first go camp at a park and then hike that park's trails). It's going to take me quite a few years to check out all of these locations. I'm glad that Steve has done that groundwork for me. I find that I even go back to re-read about the places I've already visited as I enjoy his writings. I do hope that the author continues to update and expand this book as the years go by because I would buy another further expanded version of the book again "down the road." 0 of 0 people found the following review helpful. Buy IT If You Live in Missouri ! You Won't Be Disappointed ! By Glen Behring Great book !!! Lots of great information !!! 1 of 1 people found the following review helpful. Tent Terrific By Janice Cox Everything was as expected when I read this book, however the Paddy Creek Campground that everyone raves about; we must have gone to the wrong place because we were very disappointed. It was not kept up; was way out in a secluded area, had one totally trashy camper that was supposed to be the campground host! and ended up opting to go another half hour to Montauk Springs Campground which was excellent.
