A Great Going-Away Present for My Son Whos Moving to PortlandBy AaryannaMy son surprised me late last year by announcing that he was moving to Portland for a new job.I just happened to see this book being plugged -- on the Late Show with Stephen Colbert -- so I immediately bought it.My son loved it. The book has nice photos and descriptions. He promised to look up some of the places once he got to Portland.Hes only been gone a few weeks and I miss him terribly already. At least he left knowing that his mom has a seriously funny sense of humor. Highly recommended.1 of 1 people found the following review helpful. Buyers - know your audienceBy California GalMy son attends school in Oregon, so I thought this would a funny book to send him. I was surprised to find it's more of a coffee table/art book. Or maybe it's a type of book you keep in your own bathroom for inspiration and to pass the time. This pics are great.. They're very beautical, actually. So, while I misjudged the book (def not for my college son) it's still a cute and fun book.0 of 0 people found the following review helpful. As a Portland Native I love this bookBy CustomerAs a Portland Native I love this book! I have it sitting on my coffee table as an accent piece, but trust me when I say I read the whole thing in one sitting! Cute for guests to

look through too.
