But it is great for families of younger kids (8 and under).19 of 19 people found the following review helpful. While You're AwayBy A CustomerI really like the concept of parents staying in touch with kids when they have to travel. One idea from the book that I like is to take pictures to show or send to the child so they can see what it's like where you are. Better than postcards, and sweet, not necessarily a new idea, but a great reminder. Sending secret emails and faxes sounds fun too.Cooking together on the night you return and making something special from the place/country you've been is excellent. Such nice ideas, and not too much to handle for the traveler. These are lucky kids whose parents do these things with them ... and I bet they are the kind of parents who

don't want to be away from their kids very often. 13 of 13 people found the following review helpful. Easy + Fun = SuperBy LoveKids LoveArtI happened to meet the author at a conference in Chicago recently, and what a great guy! His humor and smarts combine to be a sure-fire interesting book writer. So, I read the book, and it ! is! filled with really easy, fun ideas, tips, and tricks for staying involved with your kids when you're away. Nobody is saying it takes the place of being at home with them, but sometimes you just have to travel, and this makes it fun for the kids to keep in touch, as well as giving great ideas for what to before and after. This book is really interesting, and so is the author, Dan. I really enjoyed the fresh ideas in this book. Thanks, Robins Lane Press!
