I thought it would hold up well if I took it camping with me. Also I wanted some really basic information like what to take, what kind of camping (in a tent, an RV, etc.), pictures for how to pitch a tent or build a fire are provided as well as suggestions for what to do while camping. I found a lot of helpful information for fun safe camping.0 of 0 people found the following review helpful. The zippered cover is a great idea to keep the pages dry.
