**Chris Kulczycki : The Canoe Shop: Three Elegant Wooden Canoes Anyone Can Build** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Canoe Shop: Three Elegant Wooden Canoes Anyone Can Build:

3 of 3 people found the following review helpful. Stitch and Glue meets Lapstrake = LapstitchBy A. SolywodaWell written book about building lapstrake canoes by the originator of Chesapeake Light Craft. The designs in the book are early designs from that company. He writes from vast experience and covers every detail. He uses a method called by him "lapstitch", which is lapstrake construction with stitch and glue technique on the edges of the planks.0 of 0 people found the following review helpful. Nice Looking Canoe, But...,By Dan TannerI really like the looks of this particular model. Unfortunately, after ordering I found reviews from other purchasers indicating there are errors in the plans for the 14' and the company selling full plans and kits for this model.0 of 0 people found the following review helpful. An Experienced GuideBy davidseilheimerThe author gives a clear, concise easy to understand description of lap stitch boat building. The book details various approaches to many individual steps of the

construction of plywood canoes. He clearly demonstrates his involvement in the development of lap stitch method.

A lavishly illustrated, user-friendly guide for novices and experienced boat builders alike, *The Canoe Shop* provides plans and building instructions for three graceful and rugged touring canoes: a 12-foot double-paddle canoe, a 14-foot solo canoe, and a 16-foot tandem boat that virtually anyone can build directly from the book. Following the same critically acclaimed format found in his classic, *The New Kayak Shop*, leading North American boat designer Chris Kulczycki walks readers through the entire building process for each boat. One standout feature of *The Canoe Shop* is a revolutionary, simplified approach to lapstrake construction which makes this traditional technique considered by many to be the finest method of wooden boat construction available to amateurs for the first time. - Features three original designs from one of the most respected small-boat designers - Contains dozens of illustrations and step-by-step building instructions

From the Back Cover *The Canoe Shop* arms you with complete plans and step-by-step instructions for building three graceful and rugged touring canoes, including a 12-foot double-paddle canoe, a 14-foot solo, and a 16-foot tandem. You needn't be an experienced boatbuilder to get the most out of this book. All that's required are a few common tools and the most basic woodworking skills. The secret is Chris Kulczycki's original LapStitch approach, which combines traditional lapstrake boatbuilding with the simplicity and ease of modern stitch-and-glue construction. With the help of 170 photos and illustrations, Chris walks you through the entire process for all three designs--from reading the plans to painting or varnishing your new canoe. Praise for *The Kayak Shop*
