10 of 12 people found the following review helpful. Finally, a personal cruise guide! By Mathew Jacobson I enjoy buying and reading travel guides. Most cruise guides are nothing more than a compillation of facts and stats. This guide breaks that mold. I loved the personal approach of the authors who obviously enjoy travelling and cruising. Also, they discuss in great detail, with tons of money saving tips, their exotic cruises to the Greek Isles the Yangtze River and beyond. Chapters cover the worlds most popular cruise destinations. Better yet about eight pages of COLOR photos which most other guides fail to include. Got to love a book that tells readers what to say to snobby fellow passengers who insist on bragging about their upscale outside cabins. Just tell them how much you love 'intimate' inside cabin, especially if there is a collision, when the outside cabins are the first to go!!! And tips abound from the start to finish of the cruise, from planning, to selecting the right cruise, to food, excursions etc. I also enjoyed reading these authors' Cheapskate's Guide to Vacations which covers some of the most exotic and fun land based destinations in the world.
