1 of 1 people found the following review helpful. Excellent 1st Person Account of the West in the Mid-19th Century
By RodamuRichard Burton was a prolific author who wrote many accounts of non-western cultures and explored many areas little known or unknown to Europeans. His account of a trip by stagecoach through the West just before the American Civil War is fascinating for the ordinary details of life and travel given and the interesting characters he met. His impressions of Native Americans were mostly second hand and while he was opened minded for a man of the Victorian era, he still has the mind set of that period. He was a genius and an eccentric character who lived a very adventurous and dangerous life. He enjoyed fighting and volunteered to accompany the US Army to fight some "Indians" but wasn't give the opportunity. This is not the best edition of this book; I recommend spending more money for a properly formatted and illustrated edition.

Discombombulated!!!
By fans! Unfortunately this version gets very hard to follow, it gets chopped up and out of sequence which gets very frustrating to follow, and this is unfortunate because we are talking about an incredible man in a fantastic time of our nation's history. Meeting with and giving us his perspective. I recommend buying a better version if available, you will not enjoy trying to decipher this version.

By Chad Tilley very good

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.
