It is very relaxing to flip through the pages of photos.0 of 0 people found the following review helpful. Beautiful picturesBy BiniTravelsThe pictures are beautiful. I thought this was a picture book with little text but there's actually quite a bit of text. The recipient of this gift didn't seem to mindand loved the pictures.14 of 15 people found the following review helpful. Expected MoreBy C. A. WestphalHaving been to see the New England autumn colors myself, and taken some (amateur) photos, I wanted a compilation of professional photos to remind me of the "ooh" and "aaah" feeling I had. This book had quite a few really nice photos, but I expected a more wide-view show of the variations of color. There were too many close-up photos of rivers rocks with some colorful leaves; I would've preferred a grander panorama of colorful trees in different stages of the season. There was too few photos of lakes reflecting colors, for example. I wouldn't say I totally regretted buying this book - it was Okay, but it could've been better.

The perfect keepsake for those who cherish the most colorful time of the year in New England. Professional photographers Jerry and Marcy Monkman have selected the most stunning shots from their years of photographing New England to create this beautiful, appealing gift book. More than 75 full-color photographs spotlight spectacular

scenery from the Berkshires of Massachusetts, the Green Mountains of Vermont, the White Mountains of New Hampshire, and the forested wilds of northern Maine. In addition, the Monkman family provide regional maps highlighting their recommendations for the most scenic New England routes to travel during foliage season. 96 color illustrations

This gorgeous collection of photographs celebrates the most colorful time of the year in New England. -- Outdoor Photographer
