Well Worth It!By Mother MuddleI had been to Disneyworld once before, and spent a lot of time running in circles.This book has everything from monthly temperature profiles to time your visit by, to an explanation of the various levels of Disney resorts -- economical family to deluxe wedding locale. I

wish I had bought it before I made our reservations! We really used the casual food and restaurant recommendations to hit the best and skip the rest. The author has prepared tear out checklists of attractions/route maps for family groups of different ages, so you can personalize them ahead of time and leave the book at the hotel. 0 of 0 people found the following review helpful. It is set up very well, the really neat thing is the little cards at the back that let you lay out your visits to each park.
