**McDowell Bryson, Adele Ziminski : The Concierge's Guide to Washington, DC** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Concierge's Guide to Washington, DC:

This is the ultimate travel and entertainment guide for the millions of people who visit or live in Washington. Written by two concierges with lots of experience in answering travelers' questions and helping people ``discover" a city--Al Bryson has worked as a concierge at the St. Regis and Marriott Marquis in New York City; Adele Ziminski is the concierge at The Pierre and is a member of Les Clefs d'Or, the international organization of concierges--this Guide provides a unique and thorough directory to everything one would want to know about Washington. An easy-to-use index format is included.
