Assumes you know the geographyBy XenophonThe author wanders from attraction to attraction, sometimes for 3 or 4 pages, without telling the reader where he is. The reader has to look back several pages to see in what location the author started on this particular journey. Also, very little information on accomodations.

Discover the unusual and less-travelled. Written by locals these guides provide information about the sights and experiences that they want to see and experience. From the best in local dining, quirky cultural tidbits to hidden attractions, unique finds plus many more. All have been fully updated, including information about new hotels, attractions, restaurants and 'offbeat' sidebars. This is the perfect companion for those seeking a unique travel experience. It is thoroughly revised and updated. Offbeat and out-of-the-way attractions in the state are also covered.
