From HardPress Publishing : **The Delaware Water Gap: Its Scenery, Its Legends, and Its Early History** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Delaware Water Gap: Its Scenery, Its Legends, and Its Early History:

0 of 0 people found the following review helpful. A most excellent bookBy L WebbAn interesting read about the way people thought and wrote of places they were promoting in the 1860's. I lived in this town in the 1950's and was

curious about it's early life.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
