Unexpected hurdles arise but she inspires all of us to follow our dreams.By Aimee ForbesA wonderful read from an adventurous spirit who through professional challenges and cultural hardships finds personal growth, professional success and love. Anyone who believes a vacation of a few weeks "tells" them all they need to know about a foreign land needs to make

this book a priority read into reality. Only then will one realize they have not even scratched the surface of a country's true soul until they live in that place. It is fun, insightful and will remind the North American woman that all things are still not equal in the corporate world. Nonetheless, these challenges do not stop a determined woman from finding her measure of success and happiness. 1 of 1 people found the following review helpful. Great book for anyone aspiring to work abroad or in an international setting

Any woman looking to work in Europe (or even any working in an international environment! Should read this book! It gives great insight into what anyone could face, especially being the "outsider" and the obstacles you may need to overcome to be successful. I give a lot of credit to the author for riding this crazy roller coaster - she's obviously been through a lot of ups and downs and was brave enough to put her story on paper. The book has a good flow, making you want to continue reading - at times I found it hard to put it down. Now I want to know if there will be a sequel so I can find out what happens next!

By J. M. Tkalec
As funny and entertaining as it is informative. Sounds easy and glamorous... move to Europe, get a job, have an exciting, adventure-filled life. Sure; easy. Jennifer Burge tells us, from her own experiences, that it's not quite as simple as it sounds. But she takes us on that adventure and, while reading the book, the reader feels as though they're taking that journey themselves. And what a trip it is! Luckily for us, Ms. Burge went through all the hassles and difficulties for us and is able to share her experiences with candor and wit. Brava!
