I Feel More In Control NowBy PensFifthCupAfter just a few hours with this book, I feel 100% better about planning such a potentially stressful trip.Lots of useful information - especially if you're a "numbers" person and appreciate comparative lodging cost data, crowd estimation charts,

estimated wait times by season and time of day, etc. The ride descriptions are also great, and make it clear which rides might be too much (heights, spinning, fright, etc) for some riders. Some minor redundancy: the introductions to each chapter tend to be really robust (covering 20% or so of chapter content) and then covering the same information again in the body of the chapter. Not a big deal - perhaps I even benefitted from the repetition of important points. I went from feeling completely overwhelmed to now sitting down with park maps and deciding on our route, which rides we want to wait on, and which ones we want to use our Fast Pass+ on. Worth the cost and I will likely read it again during the planning of the details of our trip. Thanks!

It just spells it out...step by step... How to and what to do! I love how they have diagrams of the layouts of the hotel rooms! Trying to search hotel by hotel to find a king bed with a foldout couch was impossible- this laid it all out for me! It also really helped me understand the fast pass system, gave an overview of all the attractions, listed tips for which rides my child may like or not like and overall just explained how things work at Disney World! A great travel book- you will read it easily with highlighter in hand and take it with you to Disney! Highly recommended!

Right up until I discovered the delivery time from California to the frozen Canadian tundra would take 9+ days. This became a true exercise in patience, only made tolerable by many, many, many CCs on the rocks. The advice and knowledge from both authors has made Disney planning beyond simple and if followed, virtually ensures an amazing experience. I hope to run into Josh one day at the park, I will be the one buying him a Unibroue and asking whether he follows Tom Bricker on Twitter ironically. You cannot go wrong with this guide.
