A wooden classic coaster.....they don't build'em they this anymore!By John LivingstonFor any roller coaster fan this is a fact filled book on a classic roller coaster in Mission Beach, California. I have had the good fortune of riding this gem while vacationing in Coronado. You can also "ride" on YouTube.....just enter in Mission Beach Giant Dipper.8 of 8 people found the following review helpful. A great book about a rare subjectBy A CustomerThis book is not widely available but it is a real gem, especially from this first printing! It's great that is now carrying it. I was lucky enough to get a personal, signed copy from the author and really enjoyed it. It is well written and thoroughly researched. Even if you're not from San Diego, you will enjoy this story about the making, unmaking, and revival of a historic roller coaster.So many authors overlook good topics right near their homes, but this author found a great story and stuck with it. I hope he rolls out another project soon.

Built in 1925, this coaster survived 3 fires, avoided demolition by the city, and later became named a National Historic Landmark. This book is full of past to present day photos of the Mission Beach area, Belmont Park, and the Giant Dipper Roller Coaster. A great book for all San Diego History and Roller Coaster buffs.
