Five StarsBy Bmecumgreat product excellent price would recommend.0 of 0 people found the following review helpful. overwhelmingBy GMA 1990Very technical, geographical, etc. Not for average sight-seeing folks. Gives information re: hiking and camping and seeing

the Grand Canyon from a very different perspective.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
